Sequence IVB

There have been numerous conference calls conducted by the WG, and I have been an active participant. There have been major changes, but I have not received all those changes from Bill. Once he sends me those changes, I will prepare the document for a SP straw vote. Hopefully, sometime this month so we can ballot in SC B in early January.

I estimate I will have spent 65 hours working on the document over the past 6 months.

Respectfully submitted,

E. A. Hap Thompson
