

Facilitator Report to ASTM Section D02.B0.10 Standards Acceleration

Facilitator: Sid Clark

Report Period: June 2020 – December 7, 2020

Total hours charged this report period:

Invoiced 119 hours

Assignments:

ASTM D4485 Facilitator and Member, D4485 Surveillance Panel

Facilitation of document updates and change requirements as directed through the D4485 Surveillance Panel. Chairperson Laura Birnbaumer, Chevron

Work with Michael Kasimirsky, TMC to implement D4485 Information Letter Updates

Facilitator for the ASTM Draft version of the Standard Test Method for Evaluation of Diesel Engine Oils in the Ford 6.7L Diesel Engine

Working with Michael Deegan and Ron Romano, Ford - Andrew Smith, Intertek - Travis Kostan and Jose Starling and Bob Warden, SwRI and Sean Moyer, ASTM Test Monitoring Center.

Currently reviewing and updating the Draft version of the 6.7L test procedure as directed via Ford and the Independent Laboratories Development Group. Completed Draft version targeted release scheduled for the first week in December.

Sequence IVB Procedure Facilitation

Worked closely with the Sequence IVB Surveillance Panel, Chairman William Buscher, Intertek, OEM Sponsor Toyota, and the ASTM Test Monitoring Center, Rich Grundza, along with the IVB Surveillance Panel membership and test laboratories to finalize the Draft Version of the Sequence IVB Test Procedure for ASTM Ballot.

The Sequence IVB Test Draft Procedure was approved for ballot by the IVB Surveillance Panel on May 4, 2020 and went to ASTM Ballot, opening May 14, 2020 closing June 14, 2020 with no objections and two Affirmative with comment votes.

Update:

Worked closely with Rich Grundza, William Buscher, and the ASTM Editor Mike Rosborough to review and finalize the ASTM Copy for publishing under ASTM D8350 designation.

Thanks, Sid

Sid Clark
