REPORT PACKET REVISION NOTICE: EOGT-20260810

VERSION: 20260810

EFFECTIVE DATE: September 30, 2026

DATE: September 3, 2026

TO: Engine Oil Gelation Test (EOGT) Surveillance Panel

FROM: John G. Loop

A revision of the EOGT Data Dictionary and Report Forms has been completed. The new VERSION date for EOGT will be 20260810.

Many lines within the original Data Dictionary have been modified, added, or removed. The primary change was to address an issue with a field name that was not compatible with lab parameters as well as adding field names for multiple determinant test results. Details of these changes may be found in the EOGT folders of the TMC website.

Use of the new Data Dictionary and Report Forms go into effect on September 30, 2026.

Please contact me if you have any questions.
