

PC-11 VGRA Matrix Test Status

November 13, 2015

One of the two T-13 tests that used oil PC11A incorrectly will be run on the correct oil PC11G (15W40) at Lab G. At this point, there is no indication that PC11G will be run at Lab A in stand 1 as was the original intent. All T-13 data will be posted at: <ftp://ftp.astmtmc.cmu.edu/refdata/diesel/T13/data/ltms.csv>

All of the originally requested COAT VGRA oils will be run. Lab A has just started their first VGRA test. Lab G is nearing completion of their runs. All COAT data will be posted at:
<ftp://ftp.astmtmc.cmu.edu/refdata/diesel/COAT/data/ltms.csv>

The field COM1 will identify the tests as VGRA matrix tests with a value of "VGRA".
Estimated T-13 Matrix Completion (360 hours/test): Week of December 7, 2015

T-13 VGRA Matrix Test Status

	Lab-Stand	A-1	A-2	D-1	G-1	G-2
Run Order	1	PC11A* 10W30 BS1 Tech1 111339-T13 Reported ✓	PC11Y 10W40 BS1 Tech 1 111446-T13 ✓	PC11LL 15W40 BS2 Tech3 111349-T13 ✓	PC11A 10W30 BS1 Tech1 111337-T13 Reported ✓	PC11KK 15W40 BS2 Tech2 111439-T13 ✓
