

# DAIMLER

## DD 13 Scuffing Test ASTM Taskforce Meeting Notes March 7th, 2016

### Daimler Trucks

# Meeting Notes 3/7/16

- (Taskforce) Review of the last 4 tests (2 SWRI, 1 Intertek, 1 Lubrizol) operational data.
- (Sean Moyer) TMC Data Package should have the updated 10 segment rating scale.
- (Greg Braziunas) It was requested that shutdowns will be recorded for matrix data set (it is already listed in the procedure)
- (Elisa Santos) Requested that operational data parameters be graphed out versus iron ICP.
- (Taskforce) All data was accepted by the task force for statistical analysis to be completed on.
  - (Bob Salgueiro) If upon further data review there are any objections they will need to be brought forward to the task force for further discussion.
- (Greg Braziunas) Daimler has asked if any taskforce members have any data that they have obtained outside of the taskforce that could potentially call into question the matrix results, we have requested that data to be shared with the taskforce immediately.
- (Sean Moyer) New Beta version to be sent out this week, comments to be sent back to TMC by 3/11/16.
  - See Suzanne Neal's updated timeline in attached March 7<sup>th</sup>, 2016 presentation.
- (Sean Moyer) Data submission to begin on 3/16/16 deadline by 3/21/16
- (Taskforce) Face to face to be scheduled 4/4 - 4/5
- (Taskforce) Face to face meeting times 8:30AM to 5:00PM located at Detroit Diesel in Detroit, Michigan.
