

MEMORANDUM: 25-008

DATE: March 18, 2025

TO: Sequence IX Surveillance Panel

FROM: Wes Venhoff

SUBJECT: Sequence IX Reference Oil 221-1 Introduction

During a surveillance panel teleconference held on March 06, 2025, the panel approved the use of TMC reference oil 221-1, utilizing the targets established for TMC reference oil 221. The data analytics group agreed to review the 221-1 data when a sufficient N size has been established. The effective date for this change is March 20, 2025.
