Jason Bowden

Daniel, Kyler

Dan Lanctot

Venkat Deshpande

Dvorak, Todd

Pat Lang

Lekavich, Jason

Hennessy, Ed

Mathur, Indresh

Anthony, Joseph

Travis Kostan

18047885000

Affinito, Ricardo

Jeremy Styer

William Buscher Intertek

Deegan, Michael

Wesley N. Venhoff

Szappanos, George

Khaled Zreik

Adrian Alfonso

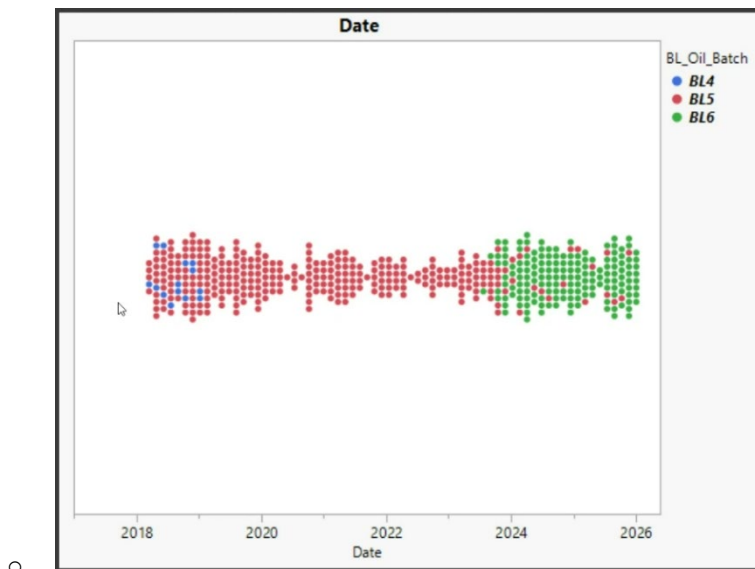

Notes

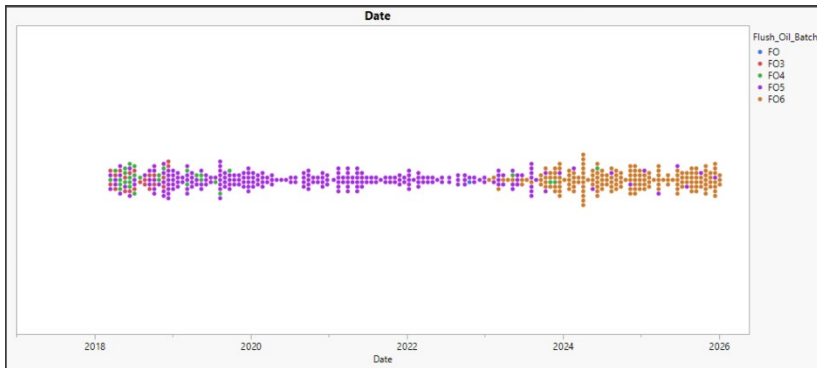

Tony C update

- Series of emails about oil qty's at each lab
 - Everyone should have enough oil now

Wes V

- Confirmed re-blends with the supplier that everything is a go
- Would like to get an understanding of total industry oil qty for the new batches

-
- Panel would like 6 year supply
 - Consensus would be to take it into the middle of GF8
- TMC received all of the inventory of the previous batches
- Matrix of each lab ran a total of 12 evaluations (BL5/BL6)
 - 6 of BL5 and 6 of BL6
 - Compared BL6 to BL5 instead of comparing to BL2
- **Action:** Wes to get a lead time quote based on previous batch qty
 - This is for BL and FO
- **Action:** Wes to send a survey to the labs on qty's
 - This is for BL and FO
- Asked if VI E/F/G would run at the same time
 - Yes. Up to the lab to deal with batches during a reference period
- Discuss later what batch should be used during the VIG test matrix
 - No update on VIG development, no response from ILSAC on new ring tension proposal email
 - Bob to resend email to ILSAC, who is meeting tonight, 1/21
- No comparison testing needed for FO
