MEMORANDUM: 22-038

DATE: November 15, 2022

TO: Robert Slocum, Chairman, L-60-1 Surveillance Panel

FROM: Dylan Beck 

SUBJECT: L-60-1 Reference Oil Testing from April 1, 2022 through September 30, 2022

Attached is a summary of testing activity this period

DJB/djb/mem22-038.djb.doc

L-60-1 (D5704)

SUMMARY OF SEVERITY & PRECISION

Severity

ACV remained outside of the limits in the severe direction for most of the reporting period.

ASL exceeded the action limit in the severe direction this period but is only exceeding the warning limit with the latest test.

TOL exceeded the severity warning limit this period but is now within limits.

Precision

ACV exceeded the action limit this period but is only exceeding the warning limit with the most recent test.

ASL exceeded the action limit this period but has since returned within limits.

Industry control charts follow.

TIMELINE ADDITIONS

Effective Date	Information Letter	Event
May 20, 2022	21-02	Added wording to section 11.3.3 to allow LED or fluorescent lighting for L-60-1 rating.
August 29, 2022	22-03	Eliminate a single source for cleaning and calibrating test instruments.

Test Monitoring Center

203 Armstrong Drive, Freeport, PA 16229, USA

412-365-1000

L-60-1 (D5704)

LAB VISITS

Two L-60-1 lab visits were conducted during this period. All inspected areas of the test type were found to be in accordance with the test procedure.

INFORMATION LETTERS

Information letter 21-02 added the option for raters to use either fluorescent or LED lighting.

Information letter 22-03 was also issued to eliminate a single source laboratory for cleaning and calibrating instruments used for L-60-1 testing. The single source laboratory had a lead time of several months. Other options were needed to not delay the testing schedule.

Test Monitoring Center

203 Armstrong Drive, Freeport, PA 16229, USA

www.astmtmc.org

412-365-1000

L-60-1 (D5704)

STATUS OF REFERENCE OIL SUPPLY

Oil	Cans @ Labs	@ TMC	
		Cans	Gallons
148-1	25	129	8.1
155-1	22	366	22.9
155-2	9	4084	255.3
Total	56	4579	286.3

The surveillance panel has asked that the TMC reserve a portion of oil 155-1 for L-60-1 testing. The TMC quantity shown for this oil is for that reserved portion. A separate quantity of 30.6 gallons is available for use in other gear testing. The panel has begun the process of approving 155-2 as a replacement for oil 155-1.

(129) tests of oil 148-1 remain in TMC inventory; however, this is less than 9 gallons. When the need arises, it will not be possible to obtain a reblend of this oil. The panel has begun the process of creating a possible replacement for this oil.
