MEMORANDUM: 03-014

DATE: March 5, 2003

TO: Spring 2003 Light Duty Gasoline Rating Workshop Attendees

FROM: Scott Parke

SUBJECT: Workshop Data

Compilation of the data produced during the February 2003 Light Duty Gasoline Rating Workshop is now completed. It is available on the TMC's website at the following URL:

ftp://ftp.astmtmc.cmu.edu/refdata/gas/rating_workshop_data/2003_spring/all_20030217_gas_rating_data.pdf

The first page of this document shows a cross index of which parts were rated by which raters; the pages that follow contain all rating data produced for all parts. Each page shows the data both as rated merit values and as standardized values (Yi values). A version of this same data with novice and field raters removed is available at:

ftp://ftp.astmtmc.cmu.edu/refdata/gas/rating_workshop_data/2003_spring/all_20030217_gas_rating_data_screened.pdf

The ASTM Rater Calibration Task Force has defined "Calibrated Raters" as those who have 1) attended an ASTM or CRC industry workshop and 2) rated parts for the test type where calibration is sought and 3) had the data they produced included with the data from the workshop. A list of raters meeting these criteria is available at:
