**MEMORANDUM:** 03-073  
**DATE:** July 22, 2003  
**TO:** IIIG Rating Workshop Attendees  
**FROM:** Scott Parke  
**SUBJECT:** Workshop Data

Compilation of the data produced during the July 15-16 2003 IIIG Rating Workshop is now completed. It is available on the TMC's website at the following URL:

[ftp://ftp.astmtmc.cmu.edu/refdata/gas/rating\\_workshop\\_data/iiig\\_2003\\_july/all\\_data.pdf](ftp://ftp.astmtmc.cmu.edu/refdata/gas/rating_workshop_data/iiig_2003_july/all_data.pdf)

All raters rated all parts. Fourteen raters participated in this workshop; each rated sixteen pistons after rating one composite calibration piston. There is one page for each part followed by one page for each rater. All data is shown both as rated merit values and as standardized values (Yi values).

At this time, the IIIG Surveillance Panel requires all IIIG tests to be rated by a rater who participated in this workshop.
