### ASTM Gear Rating Task Force Meeting & Gear Rating Workshop July 21-22, 2015

The ASTM Gear Rating Task Force meeting was attended by: Scott Parke, Don Lind, Wes Stocks, Bill Potocar, Chris Lonsway, Brian Kozak, Dustin Fee and Art Sanchez.

#### July 21, 2015

Wes Stocks welcomed everyone to Afton Chemical.

Art Sanchez called the meeting to order. Topics discussed at the Rater Task Force meeting were as follows:

One of the workshop tasks was to rate eight Gleason pinions once all calibration and practical application ratings were complete.

Scott Parke mentioned the need for all labs to keep up to 6 sets of L-33 gear sets in storage for future use at gear rating workshops regardless of the one year storage limit.

The next workshop will be hosted by Intertek in San Antonio, TX, January 19-21, 2016.

After the meeting, parts were laid out for the calibration exercise and ratings continued after lunch.

Calibration ratings were completed. Data was reviewed and discussed and was found to be acceptable.

Calibration parts were replaced with practical application parts and ratings continued until 5:00.

#### July 22, 2015

Practical application ratings continued and were completed by 11:00 a.m.

The rating of the eight Gleason pinions began and continued after lunch.

Gleason pinion ratings were reviewed and discussed, and found to be acceptable.

Practical application ratings were then reviewed and discussed. Any data different from the group was reviewed and discussed in great detail.

Workshop ended.

Afton Chemical was thanked for hosting a successful workshop and for their hospitality.

The rating areas, parts and lights were dismantled and packed.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Arthur Sanchez", written over a horizontal line.

Arthur Sanchez, Chairman  
ASTM Gear Rating Task Force

c: Mr. Wes Stocks, ASTM Gear Rating Task Force Secretary

[illegible]
